<b>Deferred Retirement Option Program (DROP)</b>				
<b>Attainment of 20 years of credited service</b>	Not Available			
<b>Interest Rate</b>	Assumed Earnings (AER)	Not Available		

- The Hybrid plan is a pension with an additional DC 401(a) account for Tier 2 and 3 members who do not contribute to Social Security.
- Depending on the membership date of a Tier 2 member who does not contribute to Social Security, the employer will pay a matching 4% contribution for a specified short period of time at which point it will reduce to 3%. (ARS § 38-868(C))
- Employers must provide a matching contribution equal to 9% of the salary of Tier 3 members who elect to receive only DC benefits.
- For Tiers 1 and 2, years of service (periods of employment) are used to determine retirement eligibility, but years of credited service (periods of contributions received) are used to calculate the benefit amount.
