MINIMUM \$500 DONATION**

## HELP HONOR CHIEF PIECHURA'S MEMORY AND HIS VISION OF FIREFIGHTER SAFETY FOR THE MEN AND WOMEN WHO SERVE.

Chief Jeff Piechura was at the helm when he and his team at Northwest Fire District set out to build a fire training center to better prepare firefighters for the demands of the job they were about to begin. Since 2012, thousands of firefighters have received training at the Northwest Fire District facility.

Firefighter safety was Chief Piechura's top priority. He knew that excellent training not only protected his crews, it served the taxpayers and community well.

Our friend, leader and mentor lost his life on July 10, 2021, when the aircraft he was flying in crashed while he was working as an air tactical group supervisor (ATGS) on the Cedar Basin Fire near Wikieup, Arizona.

The SJ Piechura Tribute Committee is working on plans to build a tribute on the training center grounds in Chief Pie's memory – a space where firefighters can reflect on the values that make them strong.

May we count on you to help fund the project?
